

# How to make a programmer happy, seriously?!

In this project, we are interested in the people who like their current jobs and have a positive attitude about their career development. Keep in mind, happiness is not given. So let's figure it out how to make a programmer happy!

## Installations

Basic packages: numpy, pandas, matplotlib, sklearn and seaborn.

## File Descriptions

*rawdata folder: surveyresultspublic.csv and surveyresults\_schema.csv* are 2017 StackOverflow survey data  
model folder: Project1.ipynb has all the analysis of the problem

## Data update

Feel free to replace the data with recent survey results, and the conclusion may surprise you.

## Licensing

Feel free to cite the work as well if it is interesting for you. Cite as: H. Zhang, "How to make a programmer happy, seriously? ", 2022. <https://medium.com/@zhhaop09/how-to-make-a-programmer-happy-seriously-557921890b33>
